

Understanding Travel & Non-Travel Teams

New to club volleyball? Choosing between travel and non-travel opportunities can feel confusing. Here is a quick guide to help families understand what each pathway may look like:

TRAVEL OPPORTUNITIES

Travel opportunities may include:

- Higher levels of competition
- Out of Territory tournaments
- Greater attendance and commitment expectations
- Additional travel, accommodation and tournament costs

LOCAL/TERRITORIAL

Local/Territorial teams include:

- Regular practices and competition
- Local or territorial events
- A strong focus on fundamentals, skill development and team play
- A lower time and financial commitment

IMPORTANT TO KNOW

Being selected to a team with travel potential does not guarantee travel. Travel rosters may consider attendance, commitment, effort, positional needs, team readiness and coach evaluation.

HOW TRAVEL OPPORTUNITIES ARE DETERMINED

Not every Potential team will travel outside of the NT each season. Travel opportunities depend on athlete readiness, team commitment, tournament availability, cost, coach availability and required coach certification.

Potential has welcomed several new coaches over the past 2 seasons and many are currently working through the certification process required for certain competitions. Coach development takes time and a team can only travel when the necessary coaching requirements are in place.

We know many families are excited about opportunities to compete down South. Our goal is to support our coaches through their certification pathways so that we can continue building more travel opportunities across the club.

BOTH PATHWAYS MATTER

Both travel and non travel opportunities are valuable parts of our club. The right fit depends on athlete readiness, commitment level, availability and personal goals. Question? Please reach out - we are always happy to help!
